RE: *Traveling lecture series shut down by City of Chicago Health Officials*
At an evening meeting, it was announced that the city's Department of Health has decided to close the "Journeys with Uncle Albert" lecture series on the topic of "The Multiverse," which was scheduled to begin today at the Chicago Grand Executive Ballroom.

The decision was made after receiving several warnings that Mr. Albert's previous lectures had been closed by the London Department of Health and Welfare due to numerous consumer complaints indicating serious health problems amongst the audience during the visual part of his presentation.

Mr. Albert Meyer was arrested by local police. Although specific charges have not yet been announced, it is believed to be related to his false representation of the nature of his presentations to the city's planning permit review board

when he was trying to obtain a permit for his shows.
This reporter gained additional information by reviewing a police complaint that contained a collection of newspaper articles from London in 1924.
In these materials, journalists interviewed several members of the audience who needed medical attention after attending a lecture series.
One of them described his condition, saying that his mind seemed to be spinning, he began to hear strange voices and see faces appearing from paintings.

A city health department official shared with us an unofficial report that they recently received an official telex from the State Department stating that Uncle Albert's lecture series uses certain rapid image manipulation techniques, which reportedly also include advanced technology that creates hidden images capable of causing health problems, as was stated in the London show reports.
The technology, which remains unknown at this time, causes many viewers to enter an almost hypnotic state, while others experience dizziness similar to seasickness, as

well as some form of mental discomfort or nervousness. He also noted that the department's scientists need to conduct further research to determine whether this was a deliberate act by Mr. Meyer or whether there were some natural factors that influenced the situation.

At the time of this report, Mr. Meyer is under observation at Cook County Hospital, and only time will tell what happens next.
